

CITY OF
Lethbridge

To whom it may concern,

I highly recommend Delta Global Logistics to any organization or municipality who needs dependable and accurate shipping services.

The City of Lethbridge worked closely with Delta Global Logistics recently on several inbound loads from the USA into Lethbridge Alberta.

DGL provided very good customer service and daily inbound reports that were accurate and continuously updated. This information was crucial to our operations and helped us manage our inbound product and our crews.

Shipping and transportation is never perfect and the few times there were problems or concerns, Delta Global Logistics responded professionally and very quickly. Problems were solved immediately. They did what we wanted and needed.

DGL runs a good operation and I highly recommend their services to any other organization or municipality.

Regards,

Jerry Fress
